

Did You Know?

Did you know that you can view the sketch for any parcel on the Profile Screen? First go to your DAT folder. Open your SKETCH folder. Select Edit from the toolbar, then Select All. Once the files are selected, choose Copy (on the Edit menu). Next, open the GIS folder, also in the DAT folder. Select Paste from the Edit menu. Now when you go to the profile screen., the sketches will appear instead of the Earth! Note: Sketches on the Profile Screen will not automatically update after a saving a change. New sketches must be copied as above.
