

Did You Know?

When you click on Data Maintenance do you see the lovely gazebo or a picture of our Dayton headquarters? Or maybe the old Town Hall picture that does appear is outdated. Changing the photo that appears is simple. Find the photo you would like to appear and rename it Townhall.jpg. The photo MUST be at a resolution of 640x480 for proper sizing within the window. Place the photo in the UNIVERS DAT folder (say 'Yes' if asked to overwrite the old photo). Delete the file TOWNHALL.bmp. Close and re-open UNI-

VERS to view the new photo.

Save the jpg named Townhall in your DAT folder.

To aid in searching by property location, with the cursor in the search field, right-click to bring up the Street Location Tool. This is particularly useful for the public
